

## **TASKS ASSIGNED**

### **TASK 1**

- When you hover over the Women category from the menu bar there is a subcategory of Dresses which is not present in the left hand side menu when Women is chosen
- The +10,000 and view words are shown as clickable links where they are not.
- When clicking on each category for Popular categories for women the user journey for each category should be under the category of Women as main category

For example

Home>Shop>Women>Clothing>Dresses

But when clicked on workout wear pics and exiting it does take back to home page

- In the A-Z retailer section the last 3 retailers do not fall under the alphabetical order as the rest
- When you select Adidas as brand it appears twice and they show the same results
- Bloomingdale'S should be Bloomingdale's

### **TASK 2**

**[SIP-1] When work out picks is removed from the filters the user should return to the women category** Created: 10/May/17 Updated: 10/May/17

## Description

### Steps To Reproduce

1. Open www.intu.co.uk in chrome
2. Hover over shop online and click on Women
3. Click on Workout wear picks
4. Now click on the x next to the filter Workout wear picks

### Expected Result:

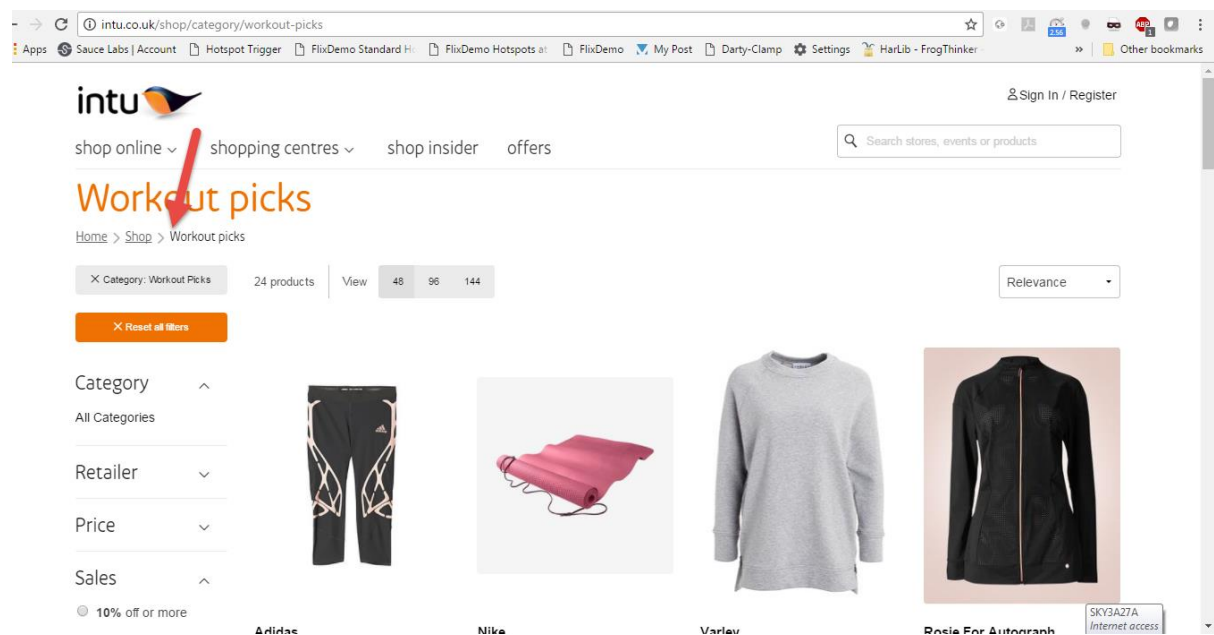

The user should be navigated to the women category.

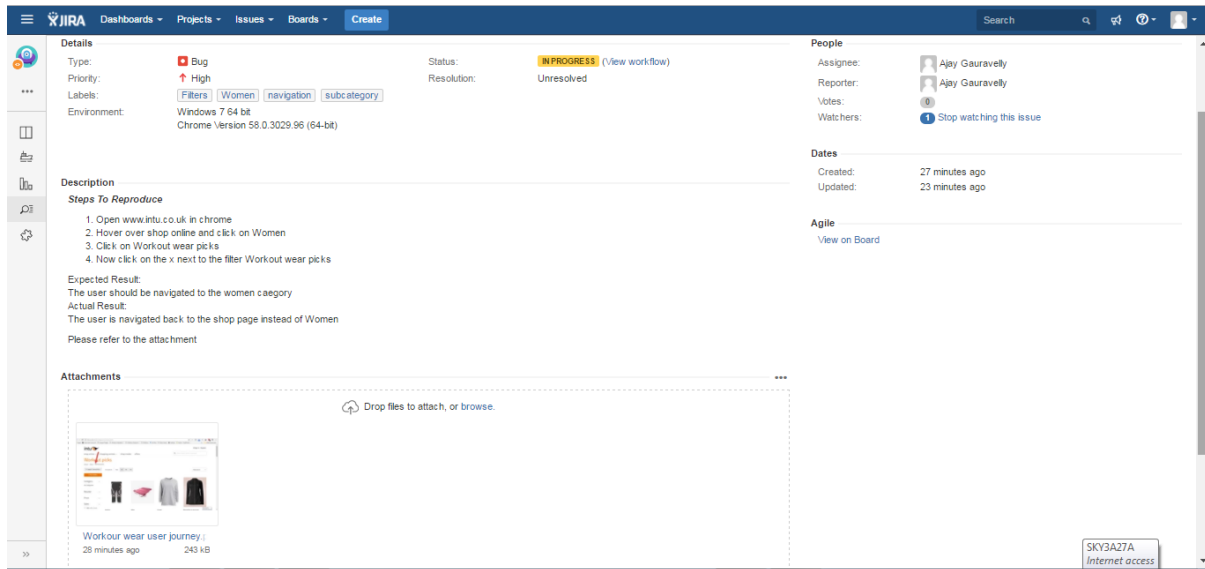

### Actual Result:

The user is navigated back to the shop page instead of Women.

## Manual Test Cases for Login

@manual, @testcases

**Feature:** Login

As a user on Intu website

I should be able to login to access various services

**Background:**

**Given** I visit "<https://intu.co.uk/>"

**And** I click on "Sign In"

@noValues

**Scenario:** Just click sign in with empty fields

**And** I click on Login

**Then** I should see "This is a required field" alert below email and password

@nodomain

**Scenario:** Email without domain

**When** I enter email as "abc"

**And** I enter password as "password"

**And** I click on Login

**Then** I should see "Please enter a valid email address. For example johndoe@domain.com." alert below email

@no password

**Scenario:** Enter email and leave password blank

**When** I enter email as "successfulemail@email.com"

**And** I click on Login

**Then** I should see "This is a required field" alert below email and password

@wrongpassword

**Scenario:** correct email and wrong password

**When** I enter email as "successfulemail@email.com"

**And** I enter password as "wrong password"

**And** I click on Login

**Then** I should see Invalid login or password message

```
@Success
Scenario: Login with the correct credentials

    When I enter email as "successfulemail@email.com"
    And I enter password as "correct password"
    And I click on Login
    Then I should see Account Dashboard with Account Information

@Failure
Scenario: Login with the incorrect credentials

    When I enter email as "nonregistered@email.com"
    And I enter password as "wwrong password"
    And I click on Login
    Then I should see Invalid login or password message

@ForgotPassword

Scenario: Request a new password via Forgot password link
    When I click on "Forgot Your Password"
    Then I should be redirected to the forgot password page
```
